► **Senior Backend Developer**

Dear Hiring Manager,

I am excited to apply for the job position at your company. As an experienced back-end & blockchain developer with over 9+ years of industry experience, I believe that my technical skills and expertise will enable me to excel in this role.

My focus on loyalty is something that sets me apart from others. It is a trait that I take great pride in, and it translates into my commitment to working on company projects. I am confident that my dedication and loyalty will be valuable assets to your team.

As a highly effective communicator, I thrive in collaborative environments. I enjoy working with colleagues to ensure that project goals are met, and that client expectations are exceeded. Additionally, I am always eager to learn and stay up-to-date with the latest developments in both web development and blockchain technology. This ensures that I deliver high-quality work that meets the needs of clients.

I am particularly impressed by your company's focus on innovation and growth, and I am excited about the opportunity to contribute to its success. I am confident that my technical skills, communication abilities, and enthusiasm for learning align well with your company's values and culture.

Thank you for considering my application. I look forward to discussing further how I can add value to your team.

Yours sincerely

Tsuyoshi Araki
